

## PROTECT OUR GREEN SPACES

**Please use this form to request protection for green spaces in Selsdon, Addington Village and Monks Hill.**

There are many green spaces around the borough that have no protection against development. This has become clear in the recent proposals to build on some of the green spaces in Selsdon and other areas in Croydon. There is an opportunity to request protection for green spaces by putting forward evidence that might justify 'Local Green Space' status. Residents can use this form to make a submission to protect a green space. One form should be used for every green space. The deadline for submissions is 22<sup>nd</sup> July 2019.

**I request 'Local Green Space' designation for the location below:**
